

## NONRESIDENTIAL

Including high-rise residential & hotel/motel projects

# ACCEPTANCE TESTING

CALIFORNIA  
ENERGY COMMISSION

### When is acceptance testing required?

- Acceptance testing is mandatory for certain nonresidential lighting, mechanical, fenestration, covered processes, and controls.
- Acceptance testing applies when regulated systems or controls are installed in newly constructed buildings, additions, and alterations.
- Any acceptance testing that is required will be specified on the NRCC(s).

### Who can conduct acceptance testing?

- Only a lighting Acceptance Test Technician (ATT) certified by an ATT Certification Provider (ATTCP) may perform testing for indoor and outdoor lighting systems and controls.
- The builder, contractor, engineer, or commissioning agent may perform testing for HVAC, fenestration, covered processes, and controls.
- A mechanical ATT certified by an ATTCP will be required to perform testing for HVAC systems and controls when the industry thresholds in § 10-103.2 are met.

### How do I find an ATT?

- ATTCPs approved by the Energy Commission maintain a directory of certified ATTs on their respective websites (provided on back of this card).
- Search filters, like name and county, are available to make finding an ATT in your area easier.

## Approved ATTCPs as of September 2016

ATTCP	Type	Certified ATT Required	Training Approved for 2013	Training Approved for 2016	Website
<b>CALCTP</b>	Lighting	YES	YES	YES	<a href="http://www.calctp.org">www.calctp.org</a>
